

Holiday Stick Ornaments

Materials:

- Sticks
- String, yarn, twine, etc.
- Scissors

Directions:

1. Decide on the first shape you would like to make with your sticks (star, square, triangle, etc.). My first shape was a star.
2. Break the number of sticks needed to make your shape into equal lengths.
3. Using your string, tie each end of the sticks together to form your shape.

4. Loop a string through your shape so you can hang it up.
5. You can wrap string around your entire shape and add things to your stick ornament!
